

GATEWAY SHREDS

Another program offered by Gateway LA is our semi-annual shredding events. These events are hosted at each of our area office buildings in partnership with Shred Time, a local, full-service shredding company. The company provides a complete array of data and destruction services, which are performed on-site using their state-of-the-art mobile shredding trucks. This past May 11th and 12th we shredded and recycled over 16,000 pounds of documents for our Gateway LA stakeholders. Save the date for the next upcoming shredding events on November 2nd and 3rd.

CLOSED CIRCUIT TELEVISION CAMERAS NOW IN FULL OPERATION

The Gateway Los Angeles CCTV camera system is now fully installed and operational throughout the district. This 30-camera system is on 24-hours a day, seven days a week, and utilizes the latest in night vision and facial recognition software. The technology has greatly improved the effectiveness of our security detail and our ability to assist property owners with deterring and reporting criminal activity. To date, we have assisted local law enforcement agencies with their investigative work in several instances and have aided in their ability to prosecute crimes. Along with this system, we have installed 22 warning signs “this area is under surveillance,” to inform the public that criminal behavior is not wanted in our district.

“Gateway Los Angeles has made a significant investment in this program, and we are thrilled to see it in place and working so well to protect our district,” said Charles Bassett, President of Gateway LA.

AMCS HONORS AIRPORT COMMISSIONER VAL VELASCO

Congratulations to Los Angeles Airport Commissioner and Gateway Board Member Val Velasco, who was recognized with the Airport Marina Counseling Service 2022 Community Builder award at the clinic’s annual Spring Celebration gala event. Commissioner Velasco was introduced by LAWA Executive Director Justin Erbacci and celebrated for her many years of community service. The event, held at Loyola Marymount University, helped raise more than \$350,000

for AMCS, which provides low-cost community mental health services and trains new therapists.

“There is no one more deserving of this award than Val, she is a strong advocate for our community, and we are so proud of all that she has accomplished,” said Charles Bassett, President of Gateway LA.

GETTING OUR STREET SUMMER READY

Rafael and the Gateway LA Clean Street team have been working hard to beautify the District. In June, the crew spent 7 days getting our medians in shape with weeding, trimming and pruning. Rafael is such an asset to our team, and we appreciate all he does to keep us looking good! With the increased traffic due to the busy travel season, we also made sure to get 61 of our Mexican Fan Palm Trees cleaned up on the eastside of the territory. We thank the entire team for their hard work to get us visitor ready.

LAX CONSOLIDATED CAR RENTAL FACILITY CONSTRUCTION REACHES KEY MILESTONE

After nearly three years and more than 4 million work hours, Los Angeles International Airport's consolidated car rental facility achieved a major construction milestone earlier this month: the handing over of the car-rental return building to 13 rental car brand tenants to build out their customer space.

The transition, which took place on June 2, marked the latest project phase for what will become the largest rental car facility in the world. With the infrastructure for the 6.3 million-square-foot building complex in place – including the concrete superstructure, elevators, escalators and landscaping – tenants can now construct their rental counters, waiting areas, office spaces and entry/exit booths.

This is all in preparation for the facility's opening, which is scheduled for summer of 2023. A few weeks or months after that, the opening is set for the \$2 billion, 2.25-mile automated people mover system that will connect the consolidated car rental facility with airport terminals.

LA28 LEADERS HIGHLIGHT WHAT'S TO COME FOR THE OLYMPIC AND PARALYMPIC GAMES

On May 12, 2022, the Gateway Los Angeles Board of Directors hosted its first in-person meeting since January of 2020. We were fortunate enough to receive a presentation from Michelle Schwartz, Chief External Affairs Officer and Marissa Pettys, Senior Manager of Hospitality Strategy and Operations for LA28, the organization that will lead the 2028 Olympic and Paralympic Games. Their mission is to celebrate our community's diversity and creativity to collectively design a Games that we all can be a part of. The LA28 team did a phenomenal job of sharing how the Olympics will contribute economically to the greater Los Angeles' area. They also presented an

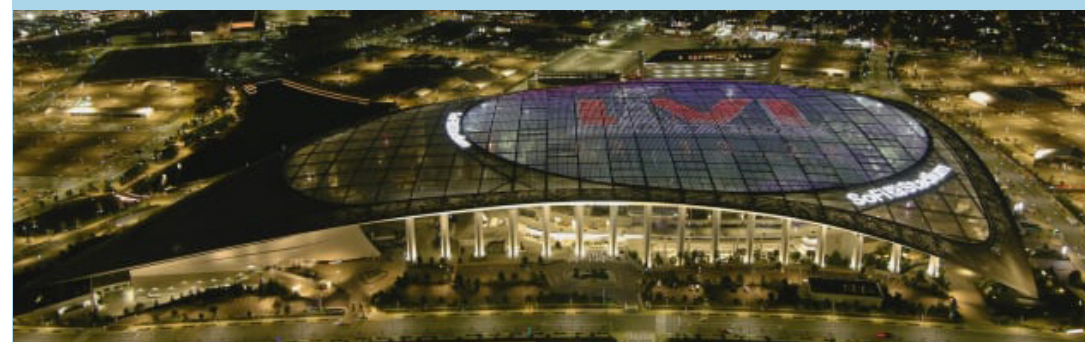

extensive list of venues that will be used to host this renowned sporting event and highlight the City of Angels and its unique characteristics on the world's stage. For more information about LA28 go to www.la28.org.

GETTING TO KNOW SOFI

The vast roof of SoFi Stadium is made up of hundreds of semi-translucent panels that diffuse sunlight during the day to reduce glare and help cool the building. At night, the canopy becomes a giant, illuminated screen, thanks to a network of LED lights that can project images and video. The roof can

even air live TV. In November 2020, the Rams showed their Monday Night Football game against the Tampa Bay Buccaneers on the stadium's canopy, offering an aerial show to airplane passengers on their final approach to nearby LAX.

GATEWAY EXEC RECEIVES HELMSMAN LEADERSHIP AWARD

On June 17, Gateway LA's Executive Director, Christina Davis received the Helmsman Leadership Award from the LAX Coastal Chamber of Commerce at their annual Installation Dinner. She received this honor recognizing her work as a community leader, which included advocating for business as well as the development of the Leadership Academy. The program has now run for 16 strong years and has helped more than 200 local business leaders be more civically engaged.

Gateway LA is a proud sponsor of this program. "Christina's tenacity to lean into the COVID-19 pandemic has helped countless local businesses survive a challenging time, said Chamber Past-Chair Rae Lamothe. "She has proven herself to be a dynamic and innovative leader and she receives this honor for her dedication to the business community."

GATEWAY'S MICHAEL RUSSELL LEADS KIWANIS SCHOLARSHIP EFFORT

Congratulations to Gateway LA's own Michael Russell for his leadership in the 2022 Kiwanis Scholarship program along with his co-chair, Sarah Kash of LAWA. This year, the LAX Kiwanis distributed over \$60,000 in college scholarships to very deserving local students. Job well done, Michael and Sarah! Congratulations to all the

students for their hard work. Gateway LA is proud to support LAX Kiwanis and their programs that give back to the community and our local students.

For more information on the LAX Kiwanis Club go to www.laxkiwanis.org.
